

NO. 11,369 10TH YEAR

COLORADO SPRINGS, COLO. MONDAY, OCTOBER 30, 1911

PRICE FIVE CENTS

JOSEPH PULITZER, NOTED EDITOR, SENIOR IN 'THIRTY'

Proprietor of World and Post-Dispatch Dies Aboard Yacht--Was Unique in Field of Journalism

CHARLESTON, S. C., Oct. 29.—Joseph Pulitzer, proprietor of the New York World and the St. Louis Post-Dispatch, died at 1:40 o'clock today aboard his yacht, the Liberty, in Charleston harbor.

The immediate cause of Mr. Pulitzer's death was heart failure. He had been ill for several days, but until a few hours before the end none of those around him suspected the gravity of his condition.

JOSEPH PULITZER.

The change for the worse came at about 3 o'clock this morning, when he suffered an attack of severe pain. By daylight he appeared to be better and all asleep about 10:30. He awoke at 1 o'clock and complained of a pain in his chest. Soon he fell into a faint and expired at 1:40 o'clock.

Mrs. Pulitzer arrived from New York today and reached the yacht shortly before her husband died. At his bedside when the end came also was his youngest son, Herbert, who had been residing with his father.

Funeral in New York.

Mr. Pulitzer's body will be taken north tomorrow afternoon in a special Pullman car. The funeral will be held at Woodlawn cemetery in New York, probably toward the end of the week.

Mr. Pulitzer's son, Joseph, Jr., is now on his way from St. Louis with his wife, and one of his daughters will come from Florida. Ralph Pulitzer, his eldest son, is on his way to Charleston, and will meet the train en route.

Up to an hour and a half before his death, Mr. Pulitzer's mind remained perfectly clear. His German secretary had been reading to him an account of the reign of Louis XI of France, in whose career Mr. Pulitzer had always taken the liveliest interest. As the secretary neared the end of his chapter and came to the death of the French king, Mr. Pulitzer said to him: "Laise, gant laise" (Sotily, quite sotily).

These were the last words he spoke.

NEW YORK, Oct. 29.—Mr. Pulitzer, accompanied by his younger son, Herbert, left New York aboard his yacht October 20, intending to take a leisurely voyage to Jekyll Island, near Brunswick, Ga., where he had a winter home. Aside from a heavy cold, which had prevented him from taking his daily walks in Central park, he was in his usual health when he left this city. He was taken ill on Friday and the yacht put in to Charleston. His illness proved to be serious, a telegram was sent to his wife, who left New York or Charleston, yesterday arriving shortly before he died.

The body will be brought to New York tomorrow when funeral arrangements will be made.

For more than a quarter of a century, Joseph Pulitzer had been one of the leading figures in American journalism. Born in Hungary in 1847 and educated there, he came to this country in 1863, enlisted in the Union army and served as a cavalryman until the end of the war when he settled in St. Louis, which was for many years the scene of his activity.

Began as a Reporter.

For many years his newspaper training was as a newspaper reporter and his awards as a city editor, managing editor and part proprietor of the Westliche Post, edited by Carl Schurz.

He bought the St. Louis Dispatch in 1878 and united it with the Post, as the St. Louis Dispatch, under his management became in a few years one of the best-known and most widely read journals of the section.

Mr. Pulitzer's entry into New York journalism occurred in 1883, when he bought the World, then a paper of small circulation. Its circulation and prestige grew rapidly under his general direction. A building to house it, which he erected in 1890 on Park Row, was not overtopped by the skyscrapers of

Representative in State Legislature.

After becoming a reporter in 1870 he developed a keen interest in politics and in a few months was elected to the Missouri state legislature.

In the same year, 1870, he, in his newspaper capacity, bitterly assailed a group of authorities in St. Louis county. This led to an encounter in a downtown hotel with Captain Edward Augustine, a contractor, who had been mentioned in the News. Augustine struck Pulitzer and the latter left the room and returned in a few minutes armed. The quarrel was renewed and Augustine was shot in the right leg. The case dragged through the courts

Miss Pulitzer Will Leave for the East

Mrs. Constance Pulitzer, 1221 North Nevada avenue, received word yesterday afternoon at 4 o'clock telling her of the death of her father. She is preparing for an immediate trip to the east, and probably will leave this morning.

Mrs. Pulitzer refuses to see any body, a servant in the home declared last evening.

It was further announced that the news of Mr. Pulitzer's death came as a shock to the daughter, although she was kept well informed as to his failing health, and knew that he was likely to pass away at any time. Although almost completely uninterested by the news and not in the best physical health, Miss Pulitzer is spending every effort to be in readiness for the trip east this morning. No reservations have been asked for herself or friends, it was announced last night.

Miss Pulitzer Will Leave for the East

Mrs. Pulitzer has been a resident of the Pike's Peak region for more than a year, coming here for the benefit of her health. She has been staying at the home in Cascade avenue most of the time, but frequently made visits to the Star ranch.

Joseph Pulitzer Jr. Mrs. Pulitzer of St. Louis, also were guests in Colorado Springs last fall, later going to the farm portion of the estate with Miss Pulitzer and a number of friends on a hunting trip. Their home while here, at the Tourville ranch.

CALL FOR REPUBLICAN NATIONAL CONVENTION TO PROVIDE FOR 1,064 DELEGATES; 980 IN 1908

WASHINGTON, Oct. 29.—The call for the Republican national convention, to be issued by the National committee December 12, will provide for 1,064 delegates, to be increased to 1,072 if Arizona and New Mexico become states before the convention is held.

The increase from 980 delegates, which comprised the Chicago convention of 1908, is the result of reapportionment by congress, which increases the size of the house of representatives from 391 to 433 members, or 433 with the two new states.

A table showing the apportionment of the delegates to the 1912 convention has been prepared by Francis Curtis, in charge here of the combined publicity headquarters of the Republican National committee and the Republican Congressional committee. This arrangement is expected to be adopted without change.

Proposed Distribution.

Alabama 24, Arkansas 18, California 24, Colorado 12, Connecticut 14, Delaware 6, Florida 12, Georgia 22, Idaho 8, Illinois 38, Indiana 30, Iowa 26, Kansas 20, Kentucky 20, Louisiana 20, Maine 12, Maryland 16, Massachusetts 24, Michigan 30, Minnesota 24, Mississippi 20, Missouri 24, Montana 8, Nebraska 16, Nevada 8, New Hampshire 8, New Jersey 20, New York 30, North Carolina 24, North Dakota 10, Ohio 40, Oklahoma 20, Oregon 10, Pennsylvania 24, Rhode Island 10, South Carolina 12, South Dakota 10, Tennessee 24, Texas 40, Utah 8, Vermont 8, Virginia 24, Washington 16, West Virginia 18, Wisconsin 26, Wyoming 8, Territories (Two each): Alaska, Arizona, District of Columbia, Hawaii, New Mexico, Philippine Islands, Porto Rico.

The basis of delegates for the Republican convention is:

Four at large in each state and two for each congressional district. The large gains in the state delegations will be:

New York, 12; Pennsylvania, 8; Oklahoma and California, 8 each; Illinois, Massachusetts, New Jersey, Texas and Washington four each.

Other states either will gain two each, or retain the apportionment of the 1908 convention.

Progressive Delike New System.

The basis used by the National committee in determining delegates to the National convention among the states

PREPARING FOR BIG FIGHT OVER TARIFF

Democrats, It Is Believed, Will Attack Report to Be Made by Board

WASHINGTON, Oct. 29.—The tariff board's report on the woolen industry is to be transmitted to congress upon the opening of the next session in December, and the board's report on cotton will follow probably before January.

This, it became known today, is the administration's program with relation to the big tariff fight that will be waged in congress this winter. A staff of 15 clerks at the census bureau is putting the finishing touches upon the board's woolen report. Completion of the table, as now being prepared, will practically terminate the statistical work and it is expected that the report will be printed and placed in President Taft's hands in ample time for transmission to congress by December 1.

An appropriation bill passed by congress for continuing the existence of the board called for a report on wool by that time, and every effort will be made to insure the completion of the figures by that date.

Schedule K Too High.

President Taft has declared that Schedule K is the most complicated schedule in the tariff and that many rates in it are too high.

Within a fortnight the wheels of the tariff machinery of congress will again be moving, with Democratic leaders underwood, chairman of the house ways and means committee, and Democratic members of that committee laying out a tentative plan for the winter's program for ratification by a Democratic caucus when congress convenes.

So far as can be learned an exhaustive investigation has been made with the idea of specifically attacking the tariff board's coming report, and Democratic leaders now in the city said today that until the character of that report is known they cannot say whether they will assent or support it.

Besides the big wool and cotton schedules, a host of other provisions of the tariff law, including proposals to reduce the duties on steel and iron and cotton machinery materials, reciprocal free admission of bituminous coal across the Canadian border, etc., will figure in the coming tariff discussions.

LA FOLLETTE'S DAUGHTER MARRIES PLAYWRIGHT

WASHINGTON, Oct. 28.—Miss La Follette, daughter of Senator La Follette of Wisconsin, was married today at the home of her parents to George Middleton of New York, a playwright.

Mr. and Mrs. Middleton went immediately to their home in New York.

THREE LOCAL RESIDENTS IN UNION PACIFIC WRECK

Head Brakeman to Blame.

ROCK SPRINGS, Wyo., Oct. 29.—Human frailty caused the wreck of the Union Pacific passenger train that ran into a freight train near here and resulted in death to three men and injuries to 30 other persons, according to an official report given out by the railroad company today.

The statement shows how a wreck can be brought about by interfering with an automatic blocking system, said to be otherwise mechanically infallible.

According to the official report, the accident, which occurred yesterday, was due to the action of Robert E. Yes, head brakeman of the westbound freight train, which had been sidetracked to allow the westbound fast mail to pass. Before the mail train came in sight from the east, the eastbound Atlantic express came along. As this passenger train neared the switch leading to the sidetrack, which lies between the eastbound and the westbound tracks, brakeman Lee, the statement says, for some unaccountable reason, stepped up to the switch stand and threw the switch, causing the Atlantic express to run in on the passing track and collide with the engine of Lee's own train.

"The signals before the switch were thrown showed both through tracks to be clear and the switch to the sidetrack closed. The express was too close to stop after the switch was turned, and the collision followed.

Among the injured were Sylvester Johnson and daughter of Colorado Springs.

ROME INTERESTED IN AMERICAN CARDINALS

Red Biretta Will Be Sent by Special Delegation and Noble Guard

ROME, Oct. 29.—The creation of three American cardinals has aroused interest in Rome. The fixing of the date for the consistory and the naming of 14 other cardinals has been overshadowed by the announcement of the honors which are to go to the United States. Secrecy regarding the appointment was so well maintained that the great majority of the people of Rome only learned of the selection this morning.

The distinction conferred upon America is the highest in the history of the church, considering that that country until 1908 was still a missionary country in the eyes of the Vatican and under the jurisdiction of the congregation of the propaganda.

Under similar conditions England is the only country that ever has had three cardinals at one time. Newman, Manning and Howard—whose entrance into the sacred college was due to their personalities. In the present instance, it is stated, the pope has decided to divide three American prelates to the cardinals in accordance with his oft-repeated assertion that he desired to show the great appreciation he has for the influence of America and the enlightenment of the episcopacy there.

Says U. S. Should Be Glad.

Rome, the organ of the English-speaking Catholics, commenting upon the consistory, says:

"The United States will have greater reasons than other countries for gladness, as it assumes finally in the senate of the universal church that important place to which it is entitled by reason of the wonderful expansion of the Catholic church within its limits."

Cardinal Vincenzo Vannetti, expressed himself today as delighted with the pope's decision. Cardinal Vannetti, after the Eucharistic congress at Montreal in 1910, visited the United States, and on his return to Rome made eulogistic report to the pope with reference to the condition of Catholicism in America and the extraordinary influence of the archbishop's office there. He urged the necessity of giving the great republic an adequate representation in the sacred college.

To add solemnity to the honor conferred upon America, the pope, instead of having the new cardinals come here for the consistory in November, will send them the red biretta by special delegations, each composed of a monsignor among the papal and private chamberlains, accompanied by a noble guard. The new cardinals will come to Rome to receive the red hat from the hands of the pope in a consistory to be held early in 1912.

The appointment of Monsignor Falconio will render the apostolic delegation complete.

**TWO CRUSHED TO DEATH
WHEN TRESTLE COLLAPSES**

TRINIDAD, Colo., Oct. 28.—Two men were instantly killed and two seriously injured late yesterday when a newly constructed trestle at the Cedar Hill and Coke company's mine at Grandville, 15 miles north of here, collapsed under the weight of a train of passenger cars which were precipitated to the bottom, a depth of about 30 feet.

The dead are:

PAUL PENNANT, aged 18, son of Andrew Tennant, superintendent of the mine.

BENJAMIN FALETTE, Italian miner, aged 25 years.

The men were buried under tons of wreckage.

John Keith, the trip rider, was seriously injured when partially buried under the wreckage, but managed to extricate himself and may recover. A second Italian laborer, standing near when the trestle collapsed, was seriously injured, but will recover. The bodies of the men killed were badly mutilated.

ENGINEER KILLED IN WRECK AT BELLEVUE

FORT WORTH, Tex., Oct. 28.—Fort Worth and Denver passenger train No. 5 northbound was wrecked at 10 o'clock tonight, one mile west of Bellevue. Engineer Cunningham is dead and his fireman and a score of passengers reported injured.

KILLED WHILE ASKING FOR A RIDE

PARKERSBURG, W. Va., Oct. 28.—Carroll L. James, a railroad conductor of this city, shot and killed his father-in-law, William Britchard, probably fatally wounded his mother-in-law, slightly injured his wife and committed suicide at Parkersburg, W. Va. James broke into the Britchard home and caught his victims while they slept.

\$100,000 FIRE IN GOTHAM

NEW YORK, Oct. 28.—Fire today destroyed the plant of H. Krantz and company, manufacturers of electrical supplies in South Brooklyn. Loss \$200,000.

SITUATION IN ONE DEAD; FOUR PEKIN IS WORSE HURT IN R. I. WRECK

Natives Leave City—Appeal to Freight Meets Pilot Engine Foreign Troops for Aid and Protection Near Peyton—Fireman S. A. Clark Crushed to Death

ATTACK ON THRONE FEARED ALL OTHERS WILL RECOVER

A. H. Keppler, American, Reported Wounded—Consular Reports Pessimistic Calhan Operator Claimed to Have Forgotten Signal, but Lays Blame on Trainmen

PEKIN, Oct. 29.—The situation in Peking is becoming worse. A terrible panic prevails among the Manchus and the Chinese. The Manchus are attempting to make their feet appear smaller by peculiarly constructed shoes.

Almost all departing trains are drawn by two engines, so heavily are they loaded, the people sitting on top of their household belongings. Officials are seeking asylum for their wives and children among the foreigners.

Prior to the revolution the newspapers frequently cried out against the presence of foreign soldiers, but the natives are fleeing to them for shelter. One report fixes tomorrow night for an outbreak, but the presence of 15,000 Manchus troops insures the safety of the capital for the present.

The only danger seems to be from a sudden attack against the throne and the officials, which might precipitate the threatened massacre by the Manchus. Race feeling is becoming intensified.

The price of provisions is still rising and a large number of foreigners are entering the legation quarter. The legation guards are preparing for emergencies. The Americans have sand bags piled on the corner wall which is now under a strong guard. Picturesque movements of the Manchus troops through the city gates occur silently after nightfall to prevent excitement among the population.

Emperor Spirited Away.

Rumors are current that the emperor has been spirited away and that Prince Ching, who is too old for flight, has committed suicide. There are many such stories. They may or may not be true. The American legation has issued orders that the women and children leaving along the Peking-Hankow railway and who, in the country to the west of the line, shall proceed as soon as possible to the coast.

The American consul general at Hankow, Roger S. Greene, reports that an American, A. H. Keppler, has been wounded in the fighting around that city. Consular reports from Nanking are pessimistic. The new troops near an attack by the old troops and are clamoring for ammunition, which the victory refuses to give them. They were ordered to leave the city but refused. The victory of Kiang-Su has chartered the British steamer Peking, which lies in the river presumably to take him away if necessary.

Six thousand of the twentieth division at Yang-Chu have refused to entrain for Hankow. Instead they sent a memorial to Peking asking for the immediate granting of a constitution. The loan scheme whereby China hopes to raise many millions dollars through a Belgian and French syndicate, is considered dangerous in some quarters.

Situation Complicated.

The national assembly is likely to oppose it fiercely, while foreign assistance for the government is likely to arouse among the rebels an anti-foreign feeling, which, up to the present, has been absent. A substantial advance on the loan within a fortnight has been arranged. A message from Hankow reports an auxiliary duel between the rebels and Chinese gunboats. The town of Tai-Yuen-Pi in the Shan-Si province is reported to have joined the revolution. Previous

Wrecking crews began pulling the debris from the wreck at 6 o'clock yesterday morning. It took them until 7 o'clock last night to remove enough of the wreckage to enable them to recover the body of Fireman Clark. A special train immediately carried the body to this city, where Coroner Jackson met the train.

It was stated last night by Rock Island officials that an investigation will be held this morning. An inquest also may be held.

Clark who was about 30 years of age, was unmarried. He often made his home in Pueblo. He had been employed by the Rock Island for several years, although he was running as an extra man when the accident occurred while en route to his home.

Traffic was tied up at the Rock Island until a late hour yesterday afternoon, by which time a track was built around the wreckage at Peyton, 30 miles east of here.

The contents of the wrecked cars consisted of grapes, being shipped east by special freight.

PRISONER THOUGHT TO BE "BILLY THE AXMAN" PROVES MERELY YOUNG GIRL IN MAN'S CLOTHES

HUNDREDS FALL IN ITALIAN-TURK WAR

Police Sergeant Springer went to stretch Charles Kraminski, arrested last evening, he found—well, things were not unbecoming to an officer. Thereby hangs the tale of how Charles Kraminski is booked at police station on a vagrancy charge under the name of Jennie Robertson, for Charles is a "perfect lady," he says, regardless of the man's garments she was wearing at the time of her arrest.

The unusual arrest took place near 701 North Pine street, not so very far away from the scene of the Wayne-Burnham murder. The fact that it was Sunday evening and that the events of another such evening a few weeks ago were still fresh in the minds of the residents of that section, had much to do in bringing about Charles or Jennie's detention.

Maybe he or she did not know of the things that took place a short distance away, and the condition of the minds of the neighborhood residents. Anyway, she started to make a house-to-house canvass in search of a "handout." A number of the people were talking and referring to "Billy the Axman" by the time she reached Collins grocery store. It was then that a few of the men thought that it would do no harm to call the police.

Police Take a Peep.

The police were anxious to take a "peep" at the character who had created such a stir in the Pine street vicinity, and several of them crowded into the jail corridor as soon as the unloading process took place. They laughed when they saw the "small" figure, white and tear-battered face and the soft, delicate hands of a woman. "To think they would get soved at a kid like that," one of the policemen said.

But the real surprise came when Springer started the searching process. "Charles" squirmed a little when he dug into a trousers pocket. Nothing entered the minds of the policeman when Springer brought out a silk scarf and something like a new coat from a hip pocket.

"What she got in your shirt kiddo?" Springer inquired, as he buttoned the vest. Then Springer turned pale, and without a word started for the door. And as for the prisoner there was nothing but a small, mossy looking and crying, on the floor. The men understood. Charles then was released.

(Continued on Page Three)

REPTON, Oct. 29.—A dispatch to the Local Anzeiger from Tripoli, dated October 28, by way of Tunis, says the Italians lost in last Monday's battle 585 killed or wounded. The Turkish losses were slight, but the Arabian cavalry met with severe losses.

The Italians are seizing hundreds of natives bringing them into the city in chains and shooting in groups. Italian discipline is demoralized. The soldiers have lost their heads and are almost out of control of their officers. The general staff is more than uneasy.

According to the correspondents, Thursday's battle the losses on both sides were enormous. Hundreds of Tripolitans broke through the Italian lines and disappeared in the desert. For the first time the Turks were reported instead of withdrawing voluntarily. Nevertheless they repeated several times their vain attacks.

The Turks have organized a regular caravan service for protecting their forces from the southern provinces. The Turks are streaming more numerous than ever to the aid of the Turks even from the most remote provinces.

Specializing in Victrolas

As fast as we can sell out our Planos, we are becoming dealers in Victor Victrolas and records, alone.

It is a pleasure to specialize because the business appeals to the imagination and gives plenty of chance for study with a view to excelling.

It now helps our patrons to enjoy their Victrolas because we study to know when Victrolas are just right and how to keep them so.

LARSEN MAKES SECOND TRIP THROUGH NIAGARA

NIAGARA FALLS, Oct. 29.—Captain Klaus Larsen of Detroit, today made his second Niagara river trip in a motor boat from the cataract to Lewiston. He completed the six-mile trip through the turbulent water in 25 minutes, coming through without a scratch. Larsen says he is through with Niagara adventures but next year will make a trip across the Atlantic in his boat the Niagara.

Larsen started from the Canadian field of the Mist dock at 1:30 o'clock and swept under the lower steel arch bridge five minutes later. Coming to Swift Drift, where the river breaks from the calm upper reach to the rapids, he veered towards the Canadian side.

The boat rode the smaller waves without a tremor, but caught by the fierce current about midway of the rapids, she was hurled up and almost clear of the mountains of water. Once the craft was sideswiped and almost keeled over by a comb. The rapids trip took hardly more than a minute.

Narrowly Escapes Vortex

As the Niagara entered the whirlpool her engine was working perfectly. Larsen kept toward the American side of the pool, but he was caught in a cross current and was almost drawn into the vortex. Only the hard kind of work with the tiller prevented trouble.

Once clear of the whirlpool Larsen headed the boat upstream in order to put things shipshape for the final trip in the Devil's Hole rapid.

He was badly buffeted in the lower rapids, but managed to hold a course close to the Canadian side and at 2:14 o'clock passed under the suspension bridge at Lewiston. He had made the five miles between the bridges in 15 minutes.

Larsen made his first trip September 14, 1910. The Niagara, the boat he used today, is 15 feet long, 5 feet 6 inches beam and 4 feet deep. The engine is 14-horse power. About 700 pounds of sand ballast was used.

ITALIANS SPY UPON TURKS FROM AIRSHIPS

ROME, via Frontier, Oct. 29.—Official reports from Tripoli describe the great value of aeroplanes in the war. By their reconnaissance, it has been possible to learn several hours in advance the movements, the strength, and sometimes the efficiency of the enemy. In this the Italian commanders have been able to distribute their troops in such a manner as to make almost certain the repulse of an attack from any direction whatever.

Military critics here are of the opinion that when a signalling system from the aeroplanes has been perfected, the rest of the war will be decided upon officers in these machines.

Reading from left to right are Miss Avis Linnell, the murdered choir singer; Miss Violet Edmonds, the fiancée of the Rev. Richeson; and below the Rev. Clarence V. T. Richeson, now held for the murder of Miss Linnell. The arrest of the minister has caused a profound sensation in the wealthy suburb of Boston, Cambridge, where Mr. Richeson was the pastor of the Immanuel Baptist church. The arrest of Richeson was precipitated by a druggist, who communicated to the Boston police that the minister had bought a quantity of cyanide in his store "to kill a dog," as the minister explained.

INTEREST KEEN IN COMING ELECTIONS

CHICAGO, Oct. 29.—Although the elections to be held November 7 will be quiet, with the presidential struggle a year hence, interest in them is keen. States that will elect governors are Rhode Island, Massachusetts, Maryland, Kentucky, Mississippi, Louisiana and Mexico. In other states justices of the supreme court, members of legislatures and mayors will be among the officials chosen.

Several vacancies are to be filled. While this is regarded as an off-year, national interests center in Massachusetts where the Democratic and Republican parties have named full state tickets. Eugene N. Fox, who was elected as a Democratic governor in a Republican state last year, is a candidate for reelection. The Republican ticket is headed by Louis A. Proctor, the present Republican lieutenant governor. Members of the legislature also will be chosen.

In New York state a new assembly will be elected as well as several justices of the supreme court and city and county officials. The assembly election will be unusually important this year as the Republicans will endeavor to gain control of the lower house, thus enabling them to block any political legislation next year.

New Mexico Votes as State

New Mexico votes for the first time in its history as a state, for a full set of state officers, members of congress and for a supreme court, eight district judges and eight district attorneys. It also will vote on a proposed amendment to the constitution making the constitution more easily amendable.

Arizona, on December 12, will hold its first state election for state officers, etc., the date having been fixed by proclamation. Ohio will vote for municipal officers and delegates to the constitutional convention. In the larger Ohio cities the contests for city officers are unusually spirited because of divisions in the line of both old parties and the determination of leaders to strengthen their organization preparatory to the fight next year for delegates to the national conventions.

Pennsylvania elects mayors in all cities and in a number of those counties there is considerable interest. Municipal officers also will be elected for among other states. In California, Utah and Tennessee a candidate for governor to succeed Governor Hoke Smith, who soon will resign to become United States senator.

Along bridge at Lewiston. He had made the five miles between the bridges in 15 minutes.

Larsen made his first trip September 14, 1910. The Niagara, the boat he used today, is 15 feet long, 5 feet 6 inches beam and 4 feet deep. The engine is 14-horse power. About 700 pounds of sand ballast was used.

Brush Says He Wants Inquiry

CHICAGO, Oct. 29.—Aroused by the publication of reports "quoting" B. B. Johnson, president of the American league, as having evidence connecting the New York National league baseball club with the alleged furnishing to ticket scalpers of a supply of tickets to the world's series games, President John T. Brush of the latter club today made public a letter, denying Johnson to proceed with an investigation. The letter follows:

"Chicago, Oct. 29.
"B. B. Johnson, Esq., President American league, Chicago.
"Dear sir—My attention has been called to a recent newspaper article, attributed to you, to the effect that 3,000 or 2,000 tickets for the recent world's series were given to speculators by the New York club at an advance of \$1 the ticket; that while you exonerate me personally, the article states that you know the essential facts and would investigate the scandal if you had the sanction of August Herrmann and T. J. Lynch.

"As the public has heard a great deal of late concerning speculators, ticket scandals, investigations and the expulsion of the New York club from the National league, I wish to say to you that you need not wait one moment for the consent of Messrs. Herrmann and Lynch in beginning an investigation so far as the New York club is concerned.

"You have my consent any may have the full cooperation of the employees of the New York club during investigation.

"If what is charged in the article is true, then I wish to know it. If it is found not true, then that fact should be made public. Respectfully,
JOHN T. BRUSH.

"First National League B. B. Club.
"Mr. Brush is in here at a Chicago hotel. He came to Chicago about a week ago to consult a Chicago physician.

The article which brought forth Mr. Brush's letter was published in a morning newspaper here today. It asserted that a meeting of the national commission would be held in Cincinnati during the second week of November for the purpose of investigating the charges concerning the alleged scalping. A sentence in it reads:

"Mr. Johnson says he will be able to confront the commission with the names of persons who obtained 3,000 seats at a single haul."

SHEEPSHEAD BAY TRACK TO BE AUCTIONED OFF

NEW YORK, Oct. 29.—Sheepshead Bay racetrack, famous as the scene of some of the greatest equine battles in the history of horse racing, is to be sold after 31 years of existence. Its 438 acres are offered to the highest bidder, and it probably will be cut up into building lots.

To the stringent law making directors of race tracks, liable for book making, is attributed the desire of the owners to dispose of the property. The track distributed on an average of \$400,000 a year to horsemen, to say nothing of the great sums won and lost in betting rings.

Dr. Howard H. Furness of Philadelphia is the fortunate possessor of a precious relic that very keenly interested trackmen—no less than a pair of antique gloves worn by William Shakespeare. They are dull buff gauntlets, the deep cuffs being bordered with gold. The actor, John Ward, gave them to Garrick in 1769. Garrick's widow presented them to Sarah Siddons. Mrs. Siddons bequeathed the gloves to her daughter, who gave them to Mrs. Fanny Kemble, from whom the Shakespearean scholar received the unquestioned precious possession.

TAFT WILL WITNESS EXPLOSION TESTS

PITTSBURG, Oct. 28.—Preliminary tests for the mine explosions and rescue work that are to be held here on October 30 and 31, before President Taft, Secretary of the Interior Walter L. Fisher, Governor Tener of Pennsylvania and 30,000 miners, mine owners, and mine superintendents took place yesterday, under the direction of H. H. Wilson, engineer-in-chief of the Federal Bureau of Mines. Mr. Wilson announced that his arrangements were in every way satisfactory, and that the two days' demonstration would provide an even more graphic exposition of the cause of mine explosions than first reports warranted.

The big feature of the program will be the miniature explosion of a coal mine on Forbes field, the Pittsburgh Baseball park, October 31, before the president and miners. The object of this explosion is to demonstrate to mine operators that coal dust is highly combustible and is to blame for some of the greatest mine disasters that have taken place in years. A steel gallery will be set up in the park, coal dust will be placed within and the charge fired from the outside by means of electricity.

Will Show Methods of Rescue

After the explosion, trained corps of rescue men will enter the fumes, with apparatus tested by the Federal Bureau of Mines and bring out the supposed victims of the disaster, giving a demonstration of resuscitation. It is to be held under the auspices of the Federal Bureau of Mines, the Pittsburgh Coal Operators association, the American Red Cross and the United Mine Workers of America, assures a deep interest in the test, and will probably do much to revising the rescue methods in the coal mines of the United States.

The explosion of coal dust in Forbes field on Tuesday will be preceded by a day devoted to the interests of coal operators, and those interested in coal mining. Its object will be to teach greater safety in mining. The first tests will be held at the experimental studios of the Bureau of Mines. There will be tests of mine safety lamps in gas and the dangers of electric sparks in gas and coal dust will also be shown in one of the galleries.

A class of miners will be trained in the use of the oxygen helmet, which permits breathing in poisonous gases for a period of two hours.

In the afternoon the operators, engineers and superintendents will witness an actual mine explosion in the experimental mine of the bureau at Bruceton, Pa., 12 miles from Pittsburgh. Here the dangers of coal dust and black powder, an explosive the bureau strongly advises against, will be tested; the bureau's experts carrying out all the bad practices which they believe lead to mine explosions.

On the morning of October 31 the spectacular explosion will take place, before the president. The rest of the morning will be given over to friendly competition between expert rescue teams from the principal coal mines of the country and a parade of miners which will pass in review before the president.

Thousands Killed Yearly in Mines

The tests and demonstrations are the result of many years of experiment by the government's corps of experts and it is believed will effect a great saving of life throughout the United States. The government's statistics show that 30,000 miners were killed within the past 10 years; that 75,000 were injured, and that mine explosions and accidents have thrown over 11,000 widows and 20,000 fatherless children upon charity. It is to reduce these casualties that the government and the mine workers and owners are cooperating.

The parade of miners, after being reviewed by the president, will march to a special pier where they will witness the marine parade in honor of the

SITUATION IN PEKIN

messages from that place said a rising was expected and that a run on the banks was under way.

A foreign naval representative at Hankow says on the morning of October 27 the imperial troops advanced and captured Kilometer Ten station, adding that the rebels made very little resistance and retired leaving many guns and much camp equipment. The government's estimate of the rebel casualties in the battle of Hankow is 3,000. The government's success is declared as being largely due to the work of the naval squadron under Admiral Sah.

HANKOW, via Wu Hui, Oct. 29.—The revolutionists on Friday night planted a battery on the river bank below Wuchang. At daybreak they opened fire on the imperial gunboats. The Chinese squadron was taken completely by surprise, although the gunners returned the fire, shooting slowly and with little accuracy.

Letters from Sun-Yang-Chow say that General Min Tehang, the imperialist commander, remains in a train, to which an engine is attached, ready for retreat north at the first alarm. A large number of imperialists have been killed or wounded in the skirmishing which is occurring daily.

Dr. Jackson, the American president of Boone university of Wuchang, was wounded in the recent fighting there. The insurgents are spending money freely, having sold all the government supplies at ridiculously low prices.

SAN FRANCISCO, Oct. 29.—A message received today by the Young Chinese association from Wong Wan Sue, president of the North American branch of the association, directed that the membership rolls be closed until a high rate of initiation had been fixed. Wong, who is touring the country with Dr. Sun Yat Sen, said to be slated for president of China, should the republican movement triumph, said also that Dr. Sun would leave for China in a few days, by way of the Suez canal. Dr. Sun was in Philadelphia at the time Wong's message was sent from New York.

SHANGHAI, Oct. 29.—Brief reports received today announced a big imperialist victory at Hankow. The rebel loss is fixed at 3,000. The imperial loss is not given. This presumably refers to the battle on Friday last.

CANTON, Oct. 28.—Representatives of the Manchurian bannermen today attended a great public meeting and declared that Manchus were opposed to bloodshed and that they were in accord with the Cantonese in a desire to secure peace. A committee was appointed to prepare a resolution setting forth Canton's attitude toward the government.

SAN FRANCISCO, Oct. 29.—A cablegram received tonight from Canton by the Young China newspaper of this city states that the Canton authorities have been asked to recognize the revolutionists or face a revolt tomorrow. The demand is said to be signed by leading revolutionists in Canton and is believed to be supported by the populace generally. Twelve hours was the time limit given in ultimatum. The administration officials are considering the demand.

DEMANDS OF CHINESE TROOPS ARE GRANTED

LONDON, Oct. 29.—A special from Pekin says 20,000 soldiers of the third and twentieth divisions, and the second mixed brigade composing the second army for the Yantse campaign, have given the regent the option of accepting immediately their demands for a complete constitutional government or they threaten to attack Pekin from their station at Lanohu, which is within striking distance of the capital.

The national assembly at a secret session indorsed the demands, and formally memorialized them to the throne. The demands are prefaced by the declaration that the troops will uphold the dynasty if the provisions set forth are granted. The demands include the promulgation of a parliament with power to revise the constitution; that the army and navy shall not be employed in international troubles without the consent of parliament; the emperor shall no longer have absolute power with respect to life and liberty; that political exiles shall be pardoned; that a responsible cabinet and premier shall be chosen by the assembly, and that royalty shall forever be ineligible to the cabinet. The presentation of the memorial caused a sensation at the palace.

Navy May Desert

A dispatch from Admiral Sah, according to the same dispatch, says that the navy threatens to desert unless there is a political change.

A special dispatch from Hankow says that the foreign residents are considered to be in some danger. Accordingly the foreign warships have landed extra guards. Resident volunteers are patrolling the streets with a machine gun.

Americans are attending the most seriously wounded of the imperialists who fell in Friday's battle. This is a fierce engagement, the fight continuing all day. The rebels were completely outmaneuvered.

The special from Pekin says the imperialists advanced to attack Han Yang on Saturday. The result thus far is not known. Yuan Shi Kai has submitted a memorial to the throne, requesting permission to enroll 120,000 more soldiers.

The centenary of the beginning of steam navigation on the Ohio river. The miners' demonstration will conclude at noon and the remainder of the day will be taken up with the river centennial.

Stick headaches caused by a disordered stomach. Take Chamberlain's Tablets and correct that and the headaches will disappear. For sale by all dealers.

Work increases the appetite, but a brain-worker needs less food than a manual laborer.

The wages of an English metropolitan police constable range from \$3.37 to \$3.87 per week.

SHOOTING STAR LANDS \$18,000 MEXICAN DERBY

MEXICO CITY, Oct. 29.—President and Mrs. de la Barra, and a large part of the capital's fashionable element, saw Francisco Rincon Gallardo's Shooting Star, daughter of Reginald and Star Lily, win the Mexican Derby today at the Condesa track.

The added money of the government makes the stake worth \$15,000, \$15,000 going to the winner, the richest purse on the American continent this season.

J. W. Copeland, of Dayton, Ohio, purchased a bottle of Chamberlain's Cough Remedy for his boy who had a cold, and before the bottle was all used the boy's cold was gone. Is that not better than to pay a five dollar doctor's bill? For sale by all dealers.

A tourist lately on the Pacific slope picked up a menu used in 1849, when California was the mecca of gold miners. The items and prices in that wild country ran as follows: "Beef soup, 31c; hash, 15c; grade, 75c; hash, 15c; grade, 41c; beef, 41c; beef, with one potato, 11c; baked beans, plain, 75c; baked beans, greased, 11c; two potatoes, 50c; rice pudding, 75c; cents.

The black scarf which British sailors wear under their broad collar stands for a sign of mourning for Lord Nelson.

On a patch of ground 25 yards by six yards all the vegetables, excepting potatoes, required by a family of four may be produced.

Emperor Frank Joseph, of Austria, who is suffering from a severe catarrhal affection. On account of the advanced age of the emperor, a close watch has been set on the monarch by the court physicians.

Stick headaches caused by a disordered stomach. Take Chamberlain's Tablets and correct that and the headaches will disappear. For sale by all dealers.

Work increases the appetite, but a brain-worker needs less food than a manual laborer.

The wages of an English metropolitan police constable range from \$3.37 to \$3.87 per week.

THE BILLBOARD NUISANCE

FROM Hampshire, England, comes a suggestion which may be of value to American crusaders against the billboard nuisance: Under authority of a law which authorizes local bodies to forbid the erection of advertising signs where they will disfigure scenery, the Hampshire County Council has enacted an ordinance that "no advertisement shall be exhibited on any boarding, stand, or other erection visible from any public highway and so placed as to disfigure the natural beauty of the landscape." Under this comprehensive enactment the authorities can almost put an end to the billboard nuisance.

The superlative impudence of the people who for commercial reasons or mere desire to see "fools' names in public places"—especially if the names are their own—almost surpasses belief. A few years ago a visitor to Colorado Springs, animated by a desire to hand his name down to posterity, painted it in large black letters on one of the prominent rocks in the Garden of the Gods. Unfortunately for himself, however, he added his address, and when the matter came to the attention of the Chamber of Commerce he was informed that he could either remove the inscription promptly or stand prosecution under a statute which forbids the defacing of scenery. Whereupon he sent money enough to pay for removing the paint from the rock. We do not remember the amount, but however high the cost may have been it was a small price to pay for the privilege of learning that natural scenery must not be defaced by the paint brush of commercial advertisers and individual publicity seekers.

But the question of defacing scenery is of vastly broader scope. It includes the whole question of billboards, which glare at the passerby and the traveler on every hand. Billboards cover every vacant lot and dead wall along the streets, and line the railroad tracks in the open country. With fiendish ingenuity the billboard man selects as the site of his abomination the particular spot which the traveler is most likely to look at because of its natural beauty. At present there are almost no laws to curb this nuisance, so there is no place exempt for the depredations of the billboard man.

The example from England here cited is well worth imitating. It ought to be plainly understood as a matter of public policy that nobody has a right to erect a billboard where it will deface the natural beauty of the landscape or scenery or in any other way be offensive to beholders.

MISAPPLICATION OF A GOOD PRINCIPLE

OF late "Scientific Management" as applied to every phase of industry has received much attention. Numerous and voluminous magazine articles have told how every little movement should be subjected to detailed study. The object of such study is to determine the meaning of said little movement. If scientific analysis should show that any movement is merely a flourish it now longer has an excuse for being. It must go by the board. The exponent of scientific management is called an "efficiency engineer." It is the function of the efficiency engineer to advise manufacturers and others of the ways and means of increasing output without a corresponding increase of cost. All of which is admirable. It means the substitution of systematized common sense for the old rule-of-thumb, but nothing more.

Recently a Conference on Scientific Management was held at Dartmouth College. One of the speakers preached two hours and a half on the necessity of speed and dispatch. Others emphasized the necessity of system in everything. As a consequence the President of Vermont University proclaimed his conversion to the new religion of system. To show the sincerity of his conversion the President announced that he had appointed an "efficiency committee" whose duty it will be to watch and appraise the various members of the faculty of Vermont University. The President did not state whether the com-

Sailors from the blockading squadron, engaged in the most daring adventure on the coast of South Carolina. The schooner *Elita* recently went ashore off Wargaw beach when attempting to run the blockade out of Savannah for Havana. On the night of the 30th 150 men in three launches went in to cut her out or destroy her, although they knew that Confederate soldiers had swarmed to the spot for her protection. Under cover of the night they crept in close, but the noise of their boats on the water discovered them to the enemy, who opened fire and drove them off before they could accomplish their purpose.

John C. Breckinridge issued a manifesto from Bowling Green to the people of Kentucky, resigning his seat in the United States senate and formally aligning himself with the Confederate cause. "There is no longer a senate of the United States within the meaning and spirit of the Constitution," he said in his manifesto. "The United States no longer exists. The Union is dissolved." He said that he gladly and proudly exchanged a seat in the senate for a place in the ranks of the southern army.

General McClellan announced the strength of Johnston's army in Virginia as 150,000 men. General Johnston himself put it at 41,000.

THE DAILY CHIT-CHAT

—BY—
RUTH CAMERON

"I don't see why I'm so tired today," ruminated the lady who was calling on me.

"Why, you've just told me that your husband brought home three guests and you had to get up a big dinner for them," I reminded her. "Doesn't that explain it?"

"Mercy no," said the lady who was calling on me. "Of course, there was a good deal of cooking to do and a tremendous pile of dishes, but I'm used to that sort of thing. Tell me what I think tired me more than the work. In the early afternoon I had to go to R— to pay a bill for Frank, and coming back, the car broke down and I was delayed. I was so afraid I would be late about starting tonight, and I knew Frank wouldn't like it if dinner wasn't ready at just half past six. If there is anything he can't abide, it's not having things just on time. And really, the worry about getting home took more out of me than the work I did when I got home."

How much energy do you think most of us use up in actual work, actually accomplishing things compared with the amount we use up in trying to get along with difficult people, in combating crochets, in looking out for sharp corners of dispositions, in harmonizing inharmonious people, and in general fretting lest we may not please or satisfy some one in some respect?

For a woman, I should put the proportion at about one to one.

For a man, perhaps less energy is utilized in this way. Somehow men don't seem to be expected to look out for other people's crochets and please everybody in quite the same way women are.

The woman I spoke of at the beginning dissipated her energy fretting lest she should be a little bit late. Perhaps you've done that.

But if you haven't, surely you have dissipated energy in worrying lest some one or other would not be satisfied with what you were doing.

"I really like to iron," I heard a patient little married woman say the other day, "but I just hate to iron about them. I declare it takes less out of me to do a whole dress for myself than a simple waist for her."

A dressmaker once told me that she would never work for people who were apt to be excessively critical and hard to please, because the day's work tired her so much more than when she worked for reasonable people.

These are but two examples of the way in which other people's crochets and whimsies and eccentricities and exactingness take more out of us than our work. Doubtless you can supply a hundred such instances from your daily experience.

And please, in case you are sufficiently interested in the line of thought to follow it up, please look for the ways in which YOUR eccentricities and exactingness take it out of other people as well as the way other people's eccentricities and exactingness take it out of you.

I assure you, you will probably find one branch of the subject as fertile as the other, and—in case you are one of those people with whom seeing a fault in themselves is equivalent to trying to correct it—much more valuable.

Ruth Cameron

Little Bobbie's Pa

By WILLIAM F. KIRK

There is the dearest little girl cumming up to the house tonight, and Ma, she is just married, and she, I have never met her husband, I am sure he must be as nice as she is. She has the sunniest temper, she is always a optimist. Does she live in New York? sed Pa. No, sed Ma, in Detroit. I thought so, sed Pa, it is very hard indeed to be a optimist, I live in New York, I don't like optimists anyway, sed Pa, I like pessimists.

Just then Mister & Missus Warner came. She was all the time laughing & giggling, like the little girls down to the school, but her husband never jaffed at all. He had a very long face, & all he sed at first was yes & no. He was a pessimist, & Pa gave him a clear the first thing, & took him in the library, too, where the sideboard is.

When they came back out Missus Warner sed to Ma, & the rest of us What a butiful world this is, to be sure. The world is funny & grate & sparkling, & full of sunshine. Doant you think so? she sed to Pa. I don't notice, sed Pa, I calm up on the Subway. But doant you think that peepul have so much good in them, & that we ought to laugh like little children from the sheer joy of living?

I can't say how it is with you, sed Pa, but wen I try laughing like little children my wife always looks at me kind of suspicious & says something about men stopping off at places on the way home. You are rite, sed Mister Warner, there aint much to laugh at. I had to pay my insurance today, & next week is rent week. I hoap the landlady is a optimist, sed Mister Warner, becaus I guess I will have to stall him a little.

Life is a butiful thing, sed Ma. I think Missus Warner is rite. As Sir Walter Scott sed, As we journey thru life let us live by the way. He never sed it, sed Mister Warner. It was Tom Moore that sed it. I saw it on a clear sign. This is rotten wether, isn't it? I have had a ferce cold for a week. This climate aint fit for a dog to live in.

Have you got a cold, did you say? sed Pa. Cum rite in here & try a little of my off medicine. So they went back to the library aggen & didnt cum out for five minits. While they was gone his wife sed to Ma. You must not mind my husband. Beneeth his ruff exterior, there is a grate deel concealed. At times, sed Ma, there is a grate deel concealed beneath my husband's ruff exterior, too, moar than you wud ever dream of. Bobbie, sed Ma, tell your father that there is a terrible draft in the library & that he & his friend must cum rite out.

Then Mister Warner & Pa came out. Mister Warner didnt have such a long face that time. It isnt a bad world after all, he sed. Things look awful, blue sometimes, but I have always found out that sooner or later it breaks the other way. What a butiful sunset, sed Mister Warner. Doant you think I have a butiful betted? he asked Ma.

Then Missus Warner began to look funny at him, the aalm way I have saw Ma look at Pa. It seemed to me, she sed, that you have changed your mind very quick.

Then a funny thing happened. Three moar times Pa & Mister Warner went into the library & wen the two wistors was redly go Mister Warner was a optimist & Missus Warner was a pessimist.

I guess moat peepul has been both optimists & pessimists sometimes.

THE CIVIL WAR

50 YEARS AGO TODAY

OCTOBER 30, 1861

Sailors from the blockading squadron, engaged in the most daring adventure on the coast of South Carolina. The schooner *Elita* recently went ashore off Wargaw beach when attempting to run the blockade out of Savannah for Havana. On the night of the 30th 150 men in three launches went in to cut her out or destroy her, although they knew that Confederate soldiers had swarmed to the spot for her protection. Under cover of the night they crept in close, but the noise of their boats on the water discovered them to the enemy, who opened fire and drove them off before they could accomplish their purpose.

John C. Breckinridge issued a manifesto from Bowling Green to the people of Kentucky, resigning his seat in the United States senate and formally aligning himself with the Confederate cause. "There is no longer a senate of the United States within the meaning and spirit of the Constitution," he said in his manifesto. "The United States no longer exists. The Union is dissolved." He said that he gladly and proudly exchanged a seat in the senate for a place in the ranks of the southern army.

General McClellan announced the strength of Johnston's army in Virginia as 150,000 men. General Johnston himself put it at 41,000.

THE DAILY CHIT-CHAT

—BY—
RUTH CAMERON

"I don't see why I'm so tired today," ruminated the lady who was calling on me.

"Why, you've just told me that your husband brought home three guests and you had to get up a big dinner for them," I reminded her. "Doesn't that explain it?"

"Mercy no," said the lady who was calling on me. "Of course, there was a good deal of cooking to do and a tremendous pile of dishes, but I'm used to that sort of thing. Tell me what I think tired me more than the work. In the early afternoon I had to go to R— to pay a bill for Frank, and coming back, the car broke down and I was delayed. I was so afraid I would be late about starting tonight, and I knew Frank wouldn't like it if dinner wasn't ready at just half past six. If there is anything he can't abide, it's not having things just on time. And really, the worry about getting home took more out of me than the work I did when I got home."

How much energy do you think most of us use up in actual work, actually accomplishing things compared with the amount we use up in trying to get along with difficult people, in combating crochets, in looking out for sharp corners of dispositions, in harmonizing inharmonious people, and in general fretting lest we may not please or satisfy some one in some respect?

For a woman, I should put the proportion at about one to one.

For a man, perhaps less energy is utilized in this way. Somehow men don't seem to be expected to look out for other people's crochets and please everybody in quite the same way women are.

The woman I spoke of at the beginning dissipated her energy fretting lest she should be a little bit late. Perhaps you've done that.

But if you haven't, surely you have dissipated energy in worrying lest some one or other would not be satisfied with what you were doing.

"I really like to iron," I heard a patient little married woman say the other day, "but I just hate to iron about them. I declare it takes less out of me to do a whole dress for myself than a simple waist for her."

A dressmaker once told me that she would never work for people who were apt to be excessively critical and hard to please, because the day's work tired her so much more than when she worked for reasonable people.

These are but two examples of the way in which other people's crochets and whimsies and eccentricities and exactingness take more out of us than our work. Doubtless you can supply a hundred such instances from your daily experience.

And please, in case you are sufficiently interested in the line of thought to follow it up, please look for the ways in which YOUR eccentricities and exactingness take it out of other people as well as the way other people's eccentricities and exactingness take it out of you.

I assure you, you will probably find one branch of the subject as fertile as the other, and—in case you are one of those people with whom seeing a fault in themselves is equivalent to trying to correct it—much more valuable.

Ruth Cameron

Little Bobbie's Pa

By WILLIAM F. KIRK

There is the dearest little girl cumming up to the house tonight, and Ma, she is just married, and she, I have never met her husband, I am sure he must be as nice as she is. She has the sunniest temper, she is always a optimist. Does she live in New York? sed Pa. No, sed Ma, in Detroit. I thought so, sed Pa, it is very hard indeed to be a optimist, I live in New York, I don't like optimists anyway, sed Pa, I like pessimists.

Just then Mister & Missus Warner came. She was all the time laughing & giggling, like the little girls down to the school, but her husband never jaffed at all. He had a very long face, & all he sed at first was yes & no. He was a pessimist, & Pa gave him a clear the first thing, & took him in the library, too, where the sideboard is.

When they came back out Missus Warner sed to Ma, & the rest of us What a butiful world this is, to be sure. The world is funny & grate & sparkling, & full of sunshine. Doant you think so? she sed to Pa. I don't notice, sed Pa, I calm up on the Subway. But doant you think that peepul have so much good in them, & that we ought to laugh like little children from the sheer joy of living?

I can't say how it is with you, sed Pa, but wen I try laughing like little children my wife always looks at me kind of suspicious & says something about men stopping off at places on the way home. You are rite, sed Mister Warner, there aint much to laugh at. I had to pay my insurance today, & next week is rent week. I hoap the landlady is a optimist, sed Mister Warner, becaus I guess I will have to stall him a little.

Life is a butiful thing, sed Ma. I think Missus Warner is rite. As Sir Walter Scott sed, As we journey thru life let us live by the way. He never sed it, sed Mister Warner. It was Tom Moore that sed it. I saw it on a clear sign. This is rotten wether, isn't it? I have had a ferce cold for a week. This climate aint fit for a dog to live in.

Have you got a cold, did you say? sed Pa. Cum rite in here & try a little of my off medicine. So they went back to the library aggen & didnt cum out for five minits. While they was gone his wife sed to Ma. You must not mind my husband. Beneeth his ruff exterior, there is a grate deel concealed. At times, sed Ma, there is a grate deel concealed beneath my husband's ruff exterior, too, moar than you wud ever dream of. Bobbie, sed Ma, tell your father that there is a terrible draft in the library & that he & his friend must cum rite out.

Then Mister Warner & Pa came out. Mister Warner didnt have such a long face that time. It isnt a bad world after all, he sed. Things look awful, blue sometimes, but I have always found out that sooner or later it breaks the other way. What a butiful sunset, sed Mister Warner. Doant you think I have a butiful betted? he asked Ma.

Then Missus Warner began to look funny at him, the aalm way I have saw Ma look at Pa. It seemed to me, she sed, that you have changed your mind very quick.

Then a funny thing happened. Three moar times Pa & Mister Warner went into the library & wen the two wistors was redly go Mister Warner was a optimist & Missus Warner was a pessimist.

I guess moat peepul has been both optimists & pessimists sometimes.

PROMINENT SANTA FE OFFICIALS PASS HERE

A party of high Santa Fe officials who are making a trip over the line for the purpose of appropriating \$100,000 for improvements and extensions, arrived in Colorado Springs from Denver on a train of six private cars Saturday afternoon. Although the officials made a short stay here, it was merely for pleasure, and the matter of improvements at this station were not discussed.

The party included W. B. Story, vice president in charge of operation; W. E. Hodges, vice president in charge of purchases; George T. Nicholson, vice president in charge of traffic; E. C. Fox, general manager; F. B. Houghton, freight traffic manager; D. L. Gallup, comptroller; W. H. Hines, chairman of the executive board; Charles S. Gleed, director; Howell Jones, director; C. W. Felt, chief engineer, and C. H. Bristol, superintendent.

PIONEER RESIDENT OF CITY DIES IN DENVER

Mrs. Ella Walsh, aged 61, for 30 years a resident of this city, but recently of Denver, died from cancer Saturday night, according to word just received here. Funeral services will be held from St. Mary's church in this city at 9 o'clock tomorrow morning, the Rev. Father Raber officiating. Interment will be in Evergreen cemetery.

Mrs. Walsh formerly lived at 16 East Cimarron street, and was well known here. She is survived by four sons, Daniel, 16 East Cimarron street, this city; and William, Arthur and Edmund, all of Denver.

GAS MEN DELIGHTED WITH ENTERTAINMENT

At 8:30 o'clock yesterday morning 400 members of the National Commercial Gas association boarded the Short Line train for Crittendon Creek, where they were shown through the workings of the Gold Coin mine. Members of the party expressed themselves as highly pleased with the entertainment accorded them on the trip. They said that nowhere had they seen grander scenery or enjoyed any trip so much as the one over the Short Line.

Seven special cars made up the train, and each was filled to capacity. The train returned to Colorado Springs about 7 o'clock last night.

"I have been at many conventions," said one of the visitors at the conclusion of the trip, "but at none of them have I had so thoroughly enjoyable a time as during the two days' entertainment here."

The party broke up last night, some of the visitors returning to their homes and others remaining in this city in order to take further advantage of the many beautiful scenic trips in the region.

The Kind You Have Always Bought

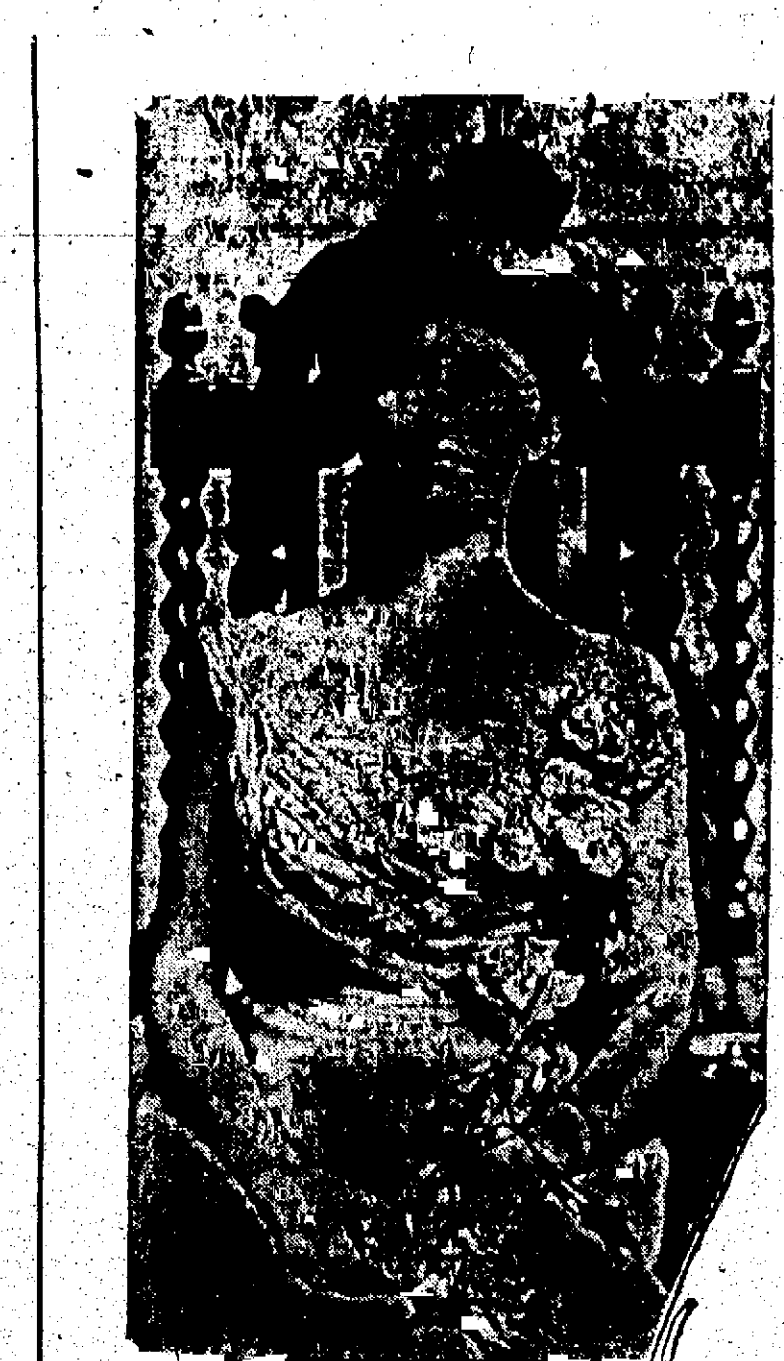

COUPLE SENT TO PUERTO

Through private aid, Mr. and Mrs. Henry Clawson, the well-dressed couple who created a stir in Colorado Springs Friday evening and Saturday over their tale of hardship in being forced to walk here from Denver, were sent to Puerto yesterday afternoon, where the husband expects to secure work. The police were told yesterday that a couple answering their description passed through Palmer Lake Thursday, and that the woman gave a ring and bracelet as security for a night's lodging.

It's So Easy to End Catarrh

Go to your drugist and say I want a HYOMEI outfit—take it home—open the box—pour a few drops of HYOMEI from the bottle into the little hard rubber inhaler—breathe it for five minutes and note the refreshing relief—breathe it four or five times a day for a few days and catarrh and all its disgusting symptoms will gradually disappear.

HYOMEI contains no opium, cocaine or other harmful drug and is sold on money back plan for catarrh, asthma, croup, colds, coughs and catarrhal deafness. Complete outfit \$1.00 extra bottles if needed 50 cents at drugists everywhere. Simple instructions for use in every package—you can't fail to banish catarrh if you follow instructions.

Miss Louise Foraker, daughter of former Senator and Mrs. Joseph B. Foraker, whose engagement was announced in Washington recently to Victor N. Cushman of Bar Harbor, Me. The wedding will be one of the social events of the season. Miss Foraker made her debut the same year as Mrs. Alice Roosevelt-Longworth, and has since been very popular in the younger set.

BAR ASSOCIATION MAY COMMENCE PROCEEDINGS

State Supreme Tribunal Will Permit Quo Warranto Action Investigating Validity Court Appeals

The state supreme court has decided to permit the Colorado Bar association to file a petition in quo warranto proceedings to test the validity of the new court of appeals.

The Bar association had filed a motion with the supreme court asking permission to present the petition, and the action means that that tribunal is willing to hear arguments on the merits of the case. The court gave the judges of the court of appeals five days in which to file their answer to the Bar association.

The Bar association asks the supreme court to decide immediately whether the appeals court is a legal body, in order to forestall any objections that might be raised after the court had rendered decisions.

Many of the ablest members of the Colorado bar contend that the appeals court is an illegal body, because the law creating it provided specifically that the appointments made by the governor should be confirmed by the senate.

Governor Shafroth did not make the appointments until after the legislature had adjourned, and he has refused to call a special session of the senate to confirm his appointees.

State Treasurer Keneshan declares that he will withhold the salaries of the judges, clerks, bailiff and stenographers of the new court until the supreme court has decided the case.

The proceedings are of more than ordinary local interest. Former Mayor Henry C. Hall of this city is president of the Colorado Bar association, and together with Dunbar F. Carpenter, also of Colorado Springs, is on the committee which took up the matter for the Bar association. J. W. Cunningham of this city is a member of the newly appointed court of appeals whose constitutionality is questioned.

Why not have that room papered for \$4.00? The Hedrick Wallpaper and Paint Co. Phone 1234.

DRY CLEANING

The Elite Laundry has added a department for that class of work.

Rev. R. R. Adams Talks on "Successful Life"

The Rev. R. R. Adams, pastor of Asbury M. E. church, talked on "A Successful Life" at the men's meeting at the Y. M. C. A. yesterday afternoon at 3:30 o'clock. He took his text from Joshua 1:8, "Then thou shalt make thy way prosperous and then thou shalt have good success."

He said that a young man starting out in life should observe four points: First, cleanliness in life; second, concentration; third, clear vision; fourth, Christ. He talked upon these "four C's" and showed just what each stands for.

For the second part of his talk he cited cases of great men in this country who have been successful in life.

REV. A. N. TAPI AT VESPER

"There Is Joy in the Presence of the Angels of God," was the subject chosen by the Rev. Arthur N. Taft, rector of St. Stephens Episcopal church, for his sermon at the Colorado college vesper service in Perkins hall yesterday afternoon.

His sermon dealt with All Saints day and the observance of it. He chose the text "What Is Heaven?"

AIDS FRIEND WHO HELPS HIM, AND LEG IS BROKEN

Arthur Inman, Milk Driver, Sustains Two Fractures in Peculiar Double Runaway Accident.

Eager to aid a friend, who was befriending him, Arthur Inman, 432 South Hancock street, became mixed up in a runaway accident early yesterday morning, and his left leg was broken in two places. Inman is a milk driver for the Sinton Dairy company.

The accident happened at Madison street and Nevada avenue at about 7 o'clock. Inman was a few minutes late and was hurrying to catch up in his work. While turning the corner off Nevada avenue, with the horses in a gallop, the milk wagon overturned.

Inman put in a call to the dairy for aid, and W. E. Hammond, 722 East Cimarron street, another driver, was sent to the scene with a wholesale supply wagon. The two men and others were busy trying to clear the wreck, when the teams driven by Hoffman and Inman took fright simultaneously and started to run.

Knowing the handicap that his team would have in running away with an overturned wagon, Inman caught the lines of Hoffman's horses. But his strength was unequal to the task, and Inman was dragged several yards. The heavy wholesale wagon passed over his left leg, breaking it in two places, just above the ankle. He was taken to St. Francis hospital in the police ambulance. His condition is not serious.

LOVE LEADS LAD ASTRAY, IS SAID

PATTERSON ACCUSED OF STEALING SHIRTWAIST

Gives It to Mother of His Sweetheart, Who, All Un-awares, Seeks Exchange

Win the mother first, then the daughter. That was the logic of Norman Patterson which, when carried out in this particular way, resulted in his being charged in the rolls of the police Saturday night, on the police blotter Patterson is said to be a shoplifter, and he will be tried for petty larceny this morning.

It all came about in this wise. Patterson became enamored of Miss Maude Mercer, 513 East Pikes, Peak avenue, daughter of Mrs. Eva Mercer. Some peace offering, thought he, must first be made to the prospective mother-in-law. Just what would be most appropriate as a gift he knew not, until, when passing the store of J. Polant company, 119 South Tejon street, a sudden light struck him. A silk shirtwaist—the very thing. Accordingly Patterson, it is said, entered the store and purloined a nice, black, silk, shirtwaist.

But—and herein came the trouble—the shirtwaist was several degrees too large for Mrs. Mercer, as she found after it had been presented to her. Inasmuch as the firm name was on the waist Mrs. Mercer decided the nicest thing for her to do would be to take it back, exchange it for a smaller one and never say a word about it to the nice young man who had given it to her.

In Polant's store the fact that a shirtwaist, black and silk, had been mysteriously taken, had just been discovered. When Mrs. Mercer presented it for exchange a few questions were asked, Patterson was found, and Saturday night he spent sleepless hours in the city bastille.

Personal Mention

Mr. and Mrs. J. A. Barton, who spent the summer at their bungalow in Cheyenne canon, have removed to the Alta Vista for the winter.

Mr. and Mrs. N. T. Johnson are spending a few days in this city at the Alta Vista hotel. Mr. Johnson formerly was connected with the Santa Fe railroad in this city, but now is located in Denver.

THE DAY'S NEWS IN SPORT CIRCLES

EVERYBODY REAPS GOLDEN HARVEST AS A RESULT OF WORLD BASEBALL SERIES

PHILADELPHIA, Oct. 29.—What will they do with all the money? That's the question uppermost in the minds of the baseball fans, now that the world's series is ended, and the echoes of "What will they do?" Certain it is no previous championship series ever has been played to the financial results that attended the six battles between the Athletics and Giants.

Thousands and thousands of dollars changed hands during the staging of the clash. Railroads, street railways, hotels and restaurants conducted record-breaking runs, taking care of the fans who came from near and afar, all armed with plenty of wampum for the occasion. Thus the players, members of the national commission and club owners are not the only persons to reap the golden harvest.

Each performer on Connie Mack's champion machine tonight looked the part of a million Croesus. It's been a case of "easy come, easy go" for the white elephants all season, with post-season

COBB AND SCHULTE GRABBED THE HONORS

CHICAGO, Oct. 29.—Following are the winners of the Chalmers prizes and all players who received votes in the race to see who wore the two most valuable baseball players in the major leagues this year:

National League		
Player	Club	Points
Schulte, Chicago, right field	29	453
Mathewson, New York, pitcher	25	391
Doyle, New York, second base	22	359
Wagner, Pittsburgh, shortstop	22	359
Alexander, Philadelphia, pitcher	22	359
Huggins, St. Louis, second base	21	328
Merkle, New York, first base	19	297
Marquard, New York, pitcher	19	297
Doyle, Brooklyn, first base	18	250
Tinker, Chicago, shortstop	17	242
Meyers, New York, catcher	17	242
Sheppard, Chicago, left field	9	141
Mitchell, Cincinnati, right field	9	141
Dooley, Philadelphia, shortstop	8	135
Harmon, St. Louis, pitcher	6	103
Doyle, Cincinnati, catcher	5	73
Robert, Philadelphia, third base	5	62
Gibson, Pittsburgh, catcher	4	62
Brown, Chicago, pitcher	4	62
Boscher, Cincinnati, left field	4	62
Sweeney, Boston, third base	3	47
Knabe, Philadelphia, second base	2	31
Konetchy, St. Louis, first base	2	31
Hobitzel, Cincinnati, first base	2	31
Walsh, Philadelphia	2	31
Devore, New York, right field	2	31
Ludwig, Philadelphia, first base	1	16
Kling, Boston, catcher	1	16
Adams, Cincinnati, pitcher	1	16
Rucker, Brooklyn, pitcher	1	16
American League		
Cobb, Detroit, left field	24	1000
Walsh, Chicago, pitcher	23	541
Collins, Athletics, second base	22	477
Johnson, Cleveland, right field	22	477
Johnson, Washington, pitcher	19	297
Cree, New York, left field	18	250
Speaker, Boston, center field	18	250
Thomas, Athletics, catcher	17	242
Milan, Washington, center field	16	210
Griggs, Cleveland, pitcher	9	141
Baker, Athletics, third base	8	135
Combs, Athletics, pitcher	8	135
Lajoie, Cleveland, second base	5	73
Knight, Philadelphia, shortstop	4	62
Bush, Detroit, shortstop	4	62
Lord, Athletics, left field	4	62
Crawford, Detroit, right field	4	62
Ford, New York, pitcher	3	47
Barry, Athletics, shortstop	3	47
August, St. Louis, third base	2	31
Laporte, St. Louis, second base	2	31
McInnis, Athletics, first base	2	31
McBride, Washington, shortstop	1	16

WAR VETERAN SUICIDES

LEAVENWORTH, Kan., Oct. 29.—David H. Mack, 33 years old, a resident of the Soldier's home here, committed suicide early this morning, almost severing his head from his body with a razor. He was wounded in the hip while serving in the Philippines and worry over his comparatively helpless condition is supposed to have made him despondent.

CHIEF MEYERS. Who Went Through the Recent Series With the Athletics Without a Single Bobble Marked to His Discredit.

DIFFERENT FROM SNODGRASS SLIDE

Chief Meyers of the Giants being put out at third base by the fourth game of the world's championship series held in Philadelphia. It is the identical play in which Snodgrass spiked Baker in the last game. Meyers was on second with one out in the fifth. The Giants were a run behind at the time. One of Bender's curves eluded Thomas and on the short-pitched ball Meyers tried for third. Thomas retreated and all in time to toss to Baker, who tagged the big, ponderous Meyers. The ponderous Meyers used the fallaway slide, but it was brought into execution when too far from the bag. Meyers explained that the reason he resorted to the "hook" slide was to avoid spiking Baker, who is soon guarding third base, as he did when Snodgrass spiked him. The chief said that the base-runner is entitled to the right-of-way and that Snodgrass used his condemned slide, straight for the bag, because he saw that it was the only way he might make it safely.

PEACE RULES IN MINOR LEAGUE

By HAROLD D. JOHNSON.

CHICAGO, Oct. 29.—Representatives of the American association will attend the tenth annual meeting of the National Association of Professional Baseball Clubs, to convene at San Antonio, November 14. Thereby hangs a tale. Last November, when the session was held in Chicago, although the A. A. chief, Tom Chivington, has his headquarters here, the big minor circuit took absolutely no cognizance of the meeting. Likewise the moguls of this organization frowned on the national association for three years prior to the snub of 1910. But peace reigns again. This sudden change in front, according to President Chivington, is the direct upshot of the ruling recently handed down by the national commission to the effect that the A. A. must continue its affiliation with the national association. The editor thus delivered followed an appeal taken by the A. A. for special ruling to cover the drafting of players from this circuit.

The owners of the association clubs have decided to attend the meeting at San Antonio and to make efforts to secure favorable legislation. "I have communicated with the various magnates and it now looks as if the association will be heavily represented. Matters of importance to the A. A. as well as the Eastern and Pacific Coast leagues will be discussed at this session."

Chivington is now considering the advisability of reducing the staff of umpires in the association. Instead of assigning two arbitrators to each battle during the championship season, the big minor executive allows as how it would be a bulky idea to fall back upon the time-honored system of employing but one official. No decision has been rendered on this point, however. President Chivington merely advanced the news that he has given it considerable thought.

A recent C. Webb Murphy of the Cubs has taken to the road, having steamed away in company with Mrs. Murphy at noon yesterday for Wilmington, Ohio, to make a four days' visit with his parents. Secretary Thomas of the Cubs' office leaves today for a hunting expedition in northern Wisconsin, while Al Campbell, fourth assistant secretary, is visiting busy booking dates for amateur football teams.

Phil Cooney, one of the recruit infielders who tried in vain for a berth with the Cubs at New Orleans last spring, dropped off at Murphy's office yesterday en route from Spokane to New York, his winter clubbing place. Cooney breezed into the club sanctum, along with another individual who called to redeem \$10 worth of hangover tickets to the city series. Secretary Thomas continues to battle with this problem.

SQUEEZED IN THE SQUEEZE

The photograph shows a squeeze play going amiss, Murphy being tagged out by Meyers midway between third and home at a time when the Athletics threatened to score while the Giants were in the lead in the fourth game of the world's championship series held in Philadelphia. The play came in the second inning and Murphy was on third, with one down. Murphy dashed into the plate with Mathewson's pitch, but Matty crossed the opposition by pitching high to Barry and Murphy was made to look foolish, as he was yards from the plate and Meyers was waiting for him with the ball. Meyers ran up to Murphy and after a short chase tagged him out. The arrow points to the ball.

Best Players Win at Golf, Says Dr. Fredericks, Expert

By DR. D. P. FREDERICKS.

"The ball must be fairly struck at with the head of the club, not pushed, scraped or spooned," says golf rule 5. You have perhaps seen this rule violated many times. For instance a player up close to a fence or under a railroad track takes his club and uses it as he would a billiard cue, hitting or pushing the ball with the end of the shaft.

Also, being in a position in which he cannot make a backswing of more than a few inches he will put his club as far back of the ball as possible and then quickly jerk it forward, making a scrape or spoon, which is strictly against the rules, the penalty being in matched play the loss of the hole.

There is a method of playing this particular stroke which gets the ball away and does not subject the player to the penalty.

Suppose the ball is close to a fence or tree, say within two or three inches of it. Take your niblick and stand in front of the ball, not facing it, but with your right foot set right handedly from six to 12 inches, or even more, in advance of the ball. Strike down hard, aiming to hit the ground directly between the obstruction and the ball, or at least an inch back of the ball.

Don't follow through and in most instances you will be pleased to see your ball jump away nicely.

In making the shot be very careful not to look at the ball at all. One must hit hard and by looking at the ball you are quite likely to hit it on top, cut it badly and also have it almost where it was originally.

Playing out from under a fence or railroad track as a rule entails the breaking of the shaft of your club. One can decide which one would rather do—lose the hole on a stroke or two or break the shaft of the club.

The easiest way to break the shaft of your club is, of course, to take it over your knee. That gets you nothing, although I'll admit one is often tempted to indulging himself in the pastime.

In the other case, the ball under a fence or track, keep your vision directed to the ground immediately back of the ball and play the shot as if no fence or rail were there. If you flinch in the least you will probably break the club and also have a chance to break another before the ball is extricated.

Golf is a game requiring a very great amount of concentration and these two shots are good examples.

The bringing off of some one particularly difficult shot, should give one more keen pleasure than any other thing in the game.

Rule VI—"A ball must be played wherever it lies or the hole given up, except as otherwise provided in the rules."

This rule needs little comment. It is one of the fundamentals and is the real essence of all the rules of golf. In fact, it is golf.

Any one wishing to get a knowledge of the game and its rules should start and end with these few words: "The ball must be played wherever it lies."

The best man win in life as in golf. It is questionable if the modification of the rules to more or less suit the poorer player does not make and keep him a poorer player.

LAMAR TEAM DROPPED FROM HIGH SCHOOL CONFERENCE RANKS FOLLOWING HEARING

By IRVIN BRUCE.

The teams that are now leading for the championship of the interscholastic ranks are Fort Morgan, Fort Collins and the "Terrors" in the northern division of the league, with the Terrors and the "Pross" in the northern division, and the "Pross" in the northern division, and the "Pross" in the northern division.

On paper, the Fort Collins team is the team that the dope favors. They have defeated the best team in the northern part of the state, and are now ready to tackle the leaders of the southern division. By their defeat over the champions Saturday the team from Morgan county is claiming the state championship. They are losing their claim on the scores of the Fort Collins-Longmont game and the scores of the Fort Morgan-Longmont game.

This is one of the worst moves that any team could make, for the way to claim a state championship is by right of conquest. If the Fort Morgan team is so anxious of claiming the state championship they can have a chance to prove their claim on Thanksgiving day, when they can meet the champions of the southern division of the league.

In all probability the state championship will be played off in Colorado Springs on turkey day. The Lamar team was dropped from the league when they failed to keep the agreement that they made at the meeting of the league regarding the controversy between Lamar and the Terrors. The league appointed a board of arbitration to settle the trouble, the said board to consist of the representatives from the Terrors and Longmont. Both teams submitted their evidence to the board and when the Lamar team found that the evidence was against them, they declined to stand by the decision of the board. The board then suspended the "Savages" from the league.

The dispute arose over the paying of the expenses of the Terrors-Lamar game, which was played in Lamar last year. The Lamar team still owes the Terrors management over \$90 on the expenses of the trip.

The constitution of the league expressly states that the home team shall pay all the expenses of the visiting team.

INDIVIDUAL HONORS WON BY ATHLETICS

PHILADELPHIA, Oct. 29.—The official batting and fielding averages of the Athletics and the Giants in the world's series, compiled by the official scorers, have been made public. For the world's champions, Baker leads at the bat, with an average in the six games of .375. Barry is second with .368 and Murphy third with .304. The team batting average is .249. Lefty Davis is the only Philadelphia player who took part in the six games with a fielding average of 1.000.

Crandall leads the Giants at the bat with an average of .500, but he took part in only three games. Of the players who took part in the six games, Captain Doyle leads with a percentage of .304. Meyers is second with .280 and Herzog third with .190. Mathewson has an average of .256, but he was in only three games. The team batting average is .375.

Scudgers and Meyers each have a fielding average of 1.000 in the six games. Murray made the poorest showing of the Giants. He did not make a hit and his fielding is rated at .675.

The Athletics excelled in every department of the game, with the exception of stolen bases, and they are tied with their opponents at four.

MANDOT KNOCKS OUT YOUNG SAYLOR, 15TH

NEW ORLEANS, Oct. 29.—Flooding his man seven times, Joe Mandot of this city knocked out Young Saylor of Indianapolis in the fifteenth round of a hard, grilling fight, before a large crowd at the West Side Athletic Club this afternoon. They had been matched for a 20-round bout.

Saylor went down the first time in the eleventh, when he stopped a straight right to the chin. This came after 10 rounds of fast and furious fighting, in which Mandot seemed master, showing great speed and judgment of distance.

In the fourteenth, Saylor went down four times and apparently was propped, although Mandot could not put him out. Saylor came up each time fighting ineffectually.

In the fifteenth, Saylor was floored and took the count of eight, and, on coming up, sent a light left to the wind. A few seconds later Mandot shot another straight right to the chin and Saylor went down all out.

Mandot's mastery was his straight punch to the head and face, which he worked with both hands. Saylor, early in the fight, began the kidney punch and kept it up constantly. Saylor seemed superior in the infighting throughout. Mandot's deadly judgment of distance and speed in delivering his hard straight punches, however, could not be overcome by the Indiana boy and resulted in his defeat. Mandot weighed 130 and Saylor one pound heavier.

FOWLER TRIES FOR NEW SUSTAINED FLIGHT MARK

MARICOPA, Ariz., Oct. 29.—In an attempt to set a new American record for sustained flight, Aviator Robert G. Fowler, transcontinental flier, remained aloft today for four hours and 26 minutes. Fowler flew from Yuma here, a distance by the Southern Pacific railroad tracks, which he followed, of 185 miles. Fowler left Yuma at 10:18 this morning. He traveled at an average rate of 40 miles an hour, hovering over this place for several minutes before alighting. The aviator will remain here tonight, leaving for Tucson early tomorrow.

YUMA, Ariz., Oct. 29.—Before the entire population of Yuma valley, including several hundred Indians, who came down from their reservations and homes to get their first sight of an airplane, Aviator Robert G. Fowler, resumed his ocean-to-ocean flight here today. Wet grounds prevented Fowler from getting off the ground in his two attempts. His airplane was wheeled onto a graded street and a third attempt was successful. Some of the Indians came from the Gopogop country, Mexico, more than 50 miles away.

Faded flowers may be revived by immersing them halfway up their stalks in very hot water.

BILLY KLEM, The National League Umpire Who Worked in the Brown World's Championship Series.
